I would like to personally thank each and every parent and member that helped out in a supervisory role this year throughout the junior golf academy. Without your help the academy could not run as smoothly as it does and every bit of support you offered meant the world to me and my staff. The success of the program has much to do with the role you played this year, thank you for supporting us and the kids!

Lake Holiday boat ramp repair update

The decision has been made to construct a coffer dam around the project area so we do not have to lower the lakes down five feet. There is the possibility we will have to lower Lake Holiday by no more than two feet and Big Bass Lake by no more than one foot just in case of a storm event so it does not wash into the project area.

All boats will still need to be removed from Lake Holiday by October 1. Boats may remain on Big Bass Lake but please use caution when boating around the lake and when using the boat ramp during this time as the water level will be very shallow.

For those that are doing shoreline work we will maintain the lowered lake level until approximately November 15, weather permitting

LOFS Historical Memorabilia Book nearly completed

By Lori DuPratt
The LOFS Historical Memorabilia Book is nearly completed. There have been a couple unexpected delays beyond our control.

At the same time, there has been a lot of support and community contribution, which leads us to share that

the book will be greater than 120 pages!

By the time you are reading this, hopefully the “design lay-out” phase has been completed and the book sent off to the publisher for printing. We’ve been told that may take four weeks. If all goes well, the books

could be available during the first part of October. We will keep you posted as we know more. Read your October, 2016, Seasonal for updated info and possibly one more 50th ‘Birthday’ event! Thank you and best regards on behalf of the LOFS 50th Committee.

Second winners of raffled-off cornhole boards announced

Kevin, Mandy, Rhylee and Merrik were the winners of one of the two sets of Cornhole Boards that were raffled off during the Independence Day and 50th Anniversary festivities. The boards were built and donated by Lee Lugo. In the August edition of the Seasonal, it was noted that Art and Ann Schaefer won the other set of boards.

As Lakes of the Four Seasons celebrates its 50th anniversary in 2016, we thought it would be interesting to take a look back at some of the events that occurred each month during 1966 when the community was first being built.

POA Community Manager
Lakes of the Four Seasons

Children are back in school so please use caution when driving through the community especially around school busses. It is illegal to pass stopped school busses.

Parents should be more vigilant in watching their children's activities during the first few weeks of school. I have witnessed through the years that some children become destructive when school starts as our vandalism problems increase significantly when school lets out and when school begins. Just recently someone damaged one of the greens on the golf course by riding a bicycle on it and making ruts.

Another year of concerts has ended and the POA hopes everyone who attended enjoyed themselves. We are happy to say that there were no real incidents this year to speak of. Altogether, the groups that collected the parking fees this year had some pretty nice days to collect on. I want to thank all of the groups that collected the

parking fees this year.

I would also like to thank the Security Department, the Clubhouse staff, and the Maintenance Department for all the extra work they had to do to make each patron's time during the concerts a pleasurable one. Let's look forward to next summer's list of bands.

Golfview Park Playground

A new playground is scheduled to be installed at Golfview Park on Brandywine Road during the week of September 5th. The old playground was over 25 years old, deteriorating and becoming unsafe for children to play on.

Drainage Issues

We are aware of the drainage issues we have throughout the community and we are working on getting them corrected. Property owners can help by keeping your ditches and culverts cleaned out and unobstructed. If you have a drainage issue please contact the POA office at 219-988-2581 so it can be investigated.

Branch Collections for Lake County portion of the community only

Fall branch collections for the Lake County portion of the community will begin on September 5 and continue until completed for that portion of the community. Piles must be placed out for collection by September 5.

Branch Collections for Porter County portion of the community only

Fall branch collections for the Porter County portion of the community including Beachview Ct., Sandy Beach Dr. & all of Forest Ln. will begin on September 26 and continue until completed for that portion of the community. Piles must be placed out for collection by September 26 but no sooner than September 16, 2016.

There will be no more collections once the crew has serviced your property. We will continue collecting branches that have fallen due to storm damage. Please contact the Operations Department at 219-988-4461 to schedule a collection.

Nothing larger than twelve (12) inches in diameter will be collected. Do not mix rubbish, roots, dirt and yard waste with branches. No drop offs will be allowed

Security Department
Lakes of the Four Seasons

By Craig Philp,
 Director of Security

Whether you are a parent, posting social media pictures of happy faces (yours and theirs) of kids going off to school for the first time or even the last time; we always have to remember there is a lot more to it. Happy or not we need to make sure that everyone's kids being sent off are safe. Parents should take the time to remind new teen drivers that the stop arms on school buses mean you need to stop.

I know we are going to start getting justifiable com-

plaints about drivers, both adult and teen, who are not stopping when buses are picking up or dropping off kids. The officers from this department will be out and issuing tickets to those found violating this state law.

Remember, kids will be kids; and we all know kids; they are not always paying attention to the things going on around them; so you as the driver of your car need to!

The national Safety Council recommends the following when sharing the road with a school bus:

- If you're driving behind a

bus, allow a greater following distance than if you were driving behind a car. It will give you more time to stop once the yellow lights start flashing. • It is illegal in all 50 states to pass a school bus that is stopped to load or unload children.

- Never pass a bus from behind – or from either direction if you're on an undivided road – if it is stopped to load or unload children
- If the yellow or red lights are flashing and the stop arm is extended, traffic must stop
- The area 10 feet around a school bus is the most dangerous for children; stop far enough back to allow them space to safely enter and exit the bus
- Be alert; children often are unpredictable, and they tend to ignore hazards and take

risks

For more safety information, visit their site at - www.nsc.org/learn/safety-knowledge/Pages/back-to-school-safety-tips-for-drivers.aspx

Now for the sad part of my article - autumn is right around the corner; yep – cooler weather, warmer clothing and, I don't even want to say it, but portable plug-in heaters. The mere thought of some of these has me cringing especially here in Northwest Indiana. We all know that weather in our area can go from the 80's to the 40's in just hours so I guess it's time to get prepared.

When is the last time you had your furnace serviced? Do you want to be that house that has no heat when you need it? Have someone come out to take a look it and make

sure there are no leaks or other issues that could prevent you from staying warm or worse yet cause a fire.

If you own a fireplace, make sure to get it inspected and cleaned from last year's use. Check your screens that help keep flying sparks and cinders where they should be for holes or other damage. Make sure the chimney flue is cleared of creosote buildup from past uses, and in some case from possible nest-

ing animals during summer months.

Check your homes foundation for cracks, as they will only get worse when colder weather comes in. Inspect your roofs for damaged shingles that should be replaced so leaks don't occur.

Now is the time of year to take advantage of the nice weather so you can get everything done that needs to be done for the upcoming cold months.

Golf Course Maintenance
Lakes of the Four Seasons

By Doug Weiss,
 Golf Course Superintendent

Summer has come to an end and fall is in the air. Cool nights and warm days are great for cool season turf. The few days that the mercury climbs into the 90s isn't very harmful because the limited amount of daylight hours. The high temperatures don't last very long.

The fairways have been overseeded with low-mow bluegrass. The process only took three days to complete. The only disruption to the playing

surface was the lines created by the seeder on the fairways.

The fairways will also be top dressed with sand and fertilized. Gypsum will also be applied, gypsum helps to break down the clay soils which allows for more, and larger spaces between soil particles. This creates easier pathways for water and nutrient penetration. This process has been repeated the last few years and has helped the turf handle the summer stress.

The only major projects

planned for this fall is rip-rapping the ditch on #10, filling the rough traps on #13 and to remove the remaining dead ash and pine trees around the golf course. I still find it amazing that an insect can kill an entire species of trees. The entire removal process should be completed in a couple of weeks.

This fall we will continue repairing several small areas around the golf course. Soil, seed and netting will be put down in areas that have been damaged by carts, equipment, etc. Late September or early October the areas on the golf course that we don't maintain on a regular basis will be cut down. This is a yearly practice

that keeps those areas from becoming a forest full of noxious weeds.

The final greens committee meeting will be on Monday, September 12, at 6 p.m. The usual first Monday in September is Labor Day. Fall is a great time to get out and play some golf and enjoy the weather. Soon the trees will be changing colors and dropping their leaves followed by cold winter, so enjoy playing golf now.

Finally, we are still looking for someone to help Kim maintain the flower beds, and I could use some additional help on the golf course. Call 988-3104 if interested.

NEW PATIENTS SEEN SAME DAY!

Do you have an illegal sewer connection?

Twin Lakes Utilities needs your help. You may unknowingly be contributing to the surcharging of the sanitary sewer system, causing untreated wastewater to flood your neighbor's homes and cause manholes to overflow.

Clear water from sump pumps, roof drains, foundation drains, etc., is not allowed to be discharged into the sanitary sewer system, it is designed for sanitary waste only. The major source of clear water entering the sanitary sewer system is through the plumbing in homes.

Clear water from the above-mentioned sources overloads the system causing untreated wastewater to

flood homes also polluting surface waters (lakes, rivers, and streams). These types of connections are a violation of state and local codes.

Twin Lakes Utilities requests that all sources of clear water that enter the sanitary sewer system be disconnected and removed as soon as possible. By everyone aiding in this action it may reduce the need for the expansion of the Waste Water Treatment Facility and related Pump Stations thus keeping costs down for everyone.

If you need any help to determine if there is an illegal sewer connection inside your home or from the roof downspouts, please contact Twin

Lakes Utilities Customer Service 877-294-8890 and our field staff will be happy to assist.

While it may appear relatively simple to perform the disconnection property owners should consult a licensed plumber to ensure that the "disconnect" is done properly. If not done properly dangerous sewer gases and untreated wastewater may enter your home or business.

Thank you for your cooperation in this matter. If you have any questions or need assistance, please contact Twin Lakes Utilities Customer Service at 877-294-8890.

Don't miss \$1 LEDs on Monday, September 19th

Save energy and money when you purchase Energy Star LEDs through Kankakee Valley REMC for just \$1. Best of all, your local electric cooperative is bringing the lightbulbs to you!

Kankakee Valley REMC, your local electric provider to Lakes of the Four Seasons, is running a special promotion on Energy Star LEDs. As a resident of LOFS and a member of the cooperative, you are eligible to purchase LEDs for \$1 per bulb (tax included), with a maximum of 25 bulbs per year. Current bulbs available include a 60-watt equivalent, 9W, 2700K (soft white), a 60 watt equivalent, 10W, 5,000K (daylight) and

a 65 watt equivalent, 10W, 2700K can light (soft white).

To better serve the residents of LOFS, representatives from Kankakee Valley REMC will be at the Clubhouse on Monday, September 19th from 3 p.m. until 7 p.m. selling LEDs. If you haven't already purchased LEDs through this program, or the PowerMoves mail-in lighting rebate program, you are eligible to purchase.

Only cash and personal checks will be accepted for payment. LEDs are also available for sale at the Kankakee Valley REMC office in Wanatah.

LOFS WGA Finalizing Plans for 6th Annual Garage, Craft & Vendor Sale

Currently, the LOFS Women's Golf Association is currently finalizing their plans for their 'Sixth Annual Harvest Time Garage, Craft & Vendor Sale' scheduled for Saturday, September 10, from 9 a.m. to 2 p.m. at the lower parking lot of the LOFS Clubhouse.

A rain date has been scheduled for Saturday, September 17.

According to Debby Gulley, Event Chair, all

LOFS and surrounding community residents are welcome to arrange for booth space to display sell and/or purchase garage sale items, craft pieces or general merchandise at a very reasonable cost. If you have items left from a summer garage sale or early fall cleaning, take advantage of our convenient location.

Due to the continued popularity of this event and limited number of booths, space will be reserved on a first-come, first-paid basis. Pricing has remained the

same as in years past. Rent for an approximate booth space of 10' x 20' is only \$20. Vendors need to provide their own tables, chairs and display racks and the WGA provides the space and promotion of the event.

All applications must be received by September 5th with payment.

For your convenience, an application is available on the LOFS website. For more information, you may contact Debby Gulley at 219-305-2624, or by cell phone at 219-742-8644.

**Monthly Update
Lakes Department
Lakes of the Four Seasons**

By Mike Talley, MS4 Coordinator

Leaves in the Lake

It's almost time for the leaves to change color and start falling. Previous years have seen lake side property owners blowing and dumping leaves into the lakes. Dumping leaves in the lakes has serious, negative side-effects on the lake waters.

The lake can handle the influx of leaves that are naturally blown into the lake from trees on a shoreline. But when some lake residents dump or blow leaves into the

lakes, it can upset the natural ecological balance.

Leaves have nutrients similar to that of yard fertilizer. They contain high levels of nitrogen, phosphorus and potassium. These high levels of these nutrients will cause excessive algae growth in the lakes. While the lakes need some algae for a healthy food chain, too much can cause the lake water to turn a thick pea green color and have a foul odor. Doesn't sound like a pleasant view looking out your back door. Some algae can release toxins that maybe

harmful to humans, animal life and fish.

The added work moving the leaves to the street will pay off. Not only does it improve that view out your back door, a clean beautiful lake view will add value to your property.

This year fall leaf collections will begin October 17

and continue until the final date of December 16. At this time the Lakes of the Four Seasons' Maintenance Department will be hard at work picking up the leaves left alongside the streets. These leaves will be used by neighboring farms to produce compost for their fields.

LOFS Lions Club Steak Fry was a success

Thank you, everyone, who attended the LOFS Lion's Steak Fry on August 21!

We hope you enjoyed the afternoon with family and

friends, which was full of fun, laughs, and great food. Please know that your participation has helped others in our community.

LOFS Lions are very excited to work with you and

LOFS Lions hosting 'The White Cane Day' on Sept. 10

The LOFS Lion's Club will be hosting 'The White Cane Day' on Saturday, September 10, at the Front Gate, the 117th Gate, and the Back Gate.

We are asking for your continued support to promote vision-saving endeavors.

The White Cane was developed in 1921 as a way to alert sighted people of someone with a vision difficulty. Sighted people can proceed with cau-

tion, courtesy, and assistance for those working with the white cane. Please work with the Lions as well as other competent organizations to assist and hopefully eradicate vision loss.

Thank you for your generosity and your support!
